Shortly after the release of the debut-album "May all be dead" – a concept album about a war veteran - in 2013 the band split up due to job-reasons.

The artwork was once again designed by MARCELO VASCO (Slayer, Kreator, Belphegor, ...). The album is released on the 28th of April 2017.

SEVEN SEALS

The story of "Transformatio Mundi"...

Preface: After an instrumental tale about beauty and doom (De Pulchritudine Et De Ruinam) the story sets in...

Eternities ago and during a Congregation, man was chosen to be the strongest species on the planet. The Ancient Order given during this meeting is clear: Respect the Gods & uphold the beauty of the planet, which is your home and the creation of the mightiest. But man won't stick to those duties. Science is demystifying the very secrets of the world, Seven Seals Unveiled. The rule of man is getting stronger and stronger, the ancient orders are slowly forgotten. During A fateful Gathering the leaders of man decide to behave like those who have once given the orders to uphold beauty. As a clear symbol of of man's divinity, he enters the temple and celebrates the forbidden Divine Delectation. The Gods see the development on the planet they once created. They are sad and speak out a clear warning to man: If you do not respect the laws and orders we gave your ancestors, you, your species and your whole planet will be doomed. Remember What Must Never Be Forgotten! In order to make man see the possible consequences, they send him a vision of the world as they wanted it - An Infinite Dream Ascends. Man sees the dream, but his will to power, his longing for divinity can not be changed anymore. The world is turning to black. Transformatio Mundi. Sadness rises in the Eldest minds, but they realize they cannot change man's attitude towards their creation anymore. They realize the Failure Of Man, who has now destroyed the earth with wars & diseases. Earth is pale and void, darkness is over the deep, the spirits of the Gods are hovering above the ground, watching the Saddening Nothingness on the planets' remains. Since they are merciful, they decide to recreate the world by sending down the son of hope and a maiden as signs of their divine mercy. Mankind gets another chance and shall Return from Exile. Conclusion: There is so much left (Quantum Restat) if man sticks to the very simple laws of upholding his home: Our earth.
