Junk Love was founded in 2012, between cows, mountains and hillbillys. Four guys, bored and sick by the society decided to make their own thing! Inspired by nature, alcoholics, any kind of trash and old punkrock sound.

A strong voice paired with psychedelic and raw riffs! Their live shows are out of control but with a lot of passion.
And if you need a description, they call it Progressive Punk. But take a look for yourself, enjoy the show and start the riot!

Junk Love is: Florian Rabatscher (vocals), Julian „Cerino" Matzneller (guitar & background vocals), Peter Pircher (drums), Mark Gufler (bass)
