

## Nerd Info

The Internet! Infinite expanses! Infinite amount of trash! A small group of computer scientists and nerds have come together to configure all parents and grandparents' laptops the 364 days around Christmas! So be aware! The Informatics will nestle in your ear canal like a porn popup on your brother-in-law's laptop! Punk Rock, Computer, Nerds and Rock'n'Roll! That's the mix that The Informatics is made of!

If you have a problem, if no one else can help, and if they are not too lazy....maybe you can hire The Informatics.
