LIVELOOPING ARTIST

DIIVISION started as an idea back in march 20, developing a dawless, independent soundsystem for live-looping and improvisation. As the following covid-19 lockdowns hit hard, this low-budget architecture was used to escape reality and dive into infinity - by ear, no screens involved.

Creating atmospheric soundscapes to share abstract emotions became the main identity of DIIVISION's music and found his way to the stage in summer of 21. 13 months later, DIIVISION evolved into a liveproject in and around the city. Teaming up with local musicians and visual artists, his liveshows are well known and respected inside the Karlsruher music scene, delivering soundtracks to dream, feel and dance at the same time.
