For smaller gigs we like to use our own PA, then we only need 230V AC power on stage.
We will control the InEar monitoring for Moritz (Keys) ourselves. The lead vocals have to be supplied with conventional monitoring via FOH. If necessary, we can also supply monitoring ourselves.

We can also provide additional equipment ourselves, please arrange in advance.

## Optional:

Our show uses **projections** (beamer/screen) if available, but can be adjusted without.
If an acoustic piano/grand piano is available, we would like to use it but it's not necessary.
Thank you!

We're excited to be working with you. Many thanks in advance!
