NIGHT LASER – Press text (2024)

NIGHT LASER has a reputation as one of the leading acts of the newly emerging German heavy glam metal and sleaze rock scene. They are known for energetic live performances, irrepressible enthusiasm and sophisticated songwriting.

With their **four studio albums** „Call Me What You Want (2024), „Power to Power“ (2020), „Laserhead“ (2017) and „Fight for the Night“ (2014), NIGHT LASER has established themselves as one of the **leading new acts** of the German metal scene. Especially their outstanding live performance led to an internationally acclaimed great reputation as an **extraordinary live band**.

This reputation is well earned, as NIGHT LASER have played more than **250 shows all over Europe and the UK**. They played with bands like Crashdiet, Powerwolf, Thundermother, Rage, and Dirkschneider, and they are currently touring with Freedom Call, John Diva and Axel Rudi Pell.

In 2022 they signed a world wide record deal with the legendary label **SPV/Steamhammer** label from Germany, and are constantly expanding their long-term story of success. No doubt about it: The great musical quality of the sleaze rockers from NIGHT LASER can be felt and heard in every single note of their **newest release** „Call Me What You Want“. The highly professional production of Eike Freese (Deep Purple, Helloween, …) further polishes this experience, and through the recording lead of Dirk Schlächter (Gamma Ray, Ross the Boss, …) the songs shine in their full glory.

Especially when performing live on stage, the new line up transports the overwhelming energy of this 4-piece. Together with the elaborated **polyphonic vocals** and an absolutely tight rhythm section, a NIGHT LASER show is a truly **captivating experience** for everyone involved.
