The band

Radio Strange is a post-grunge punk rock band from Zurich, Switzerland, formed in summer 2020.

Guitar, Bass, Drum and vocals - it's as simple as that. Their music is loud, raw, distorted and honest. In other words - Rock'n'roll baby! :-)

After several Swiss and Canadian alternative radio stations played their debut single "Masters Of The Past", the three toured around Switzerland in summer / autumn 2021.

During this period, they self-recorded, produced, mixed and mastered their debut album Handmade Bastard which was well received and drew international attention in radios (like Swiss national radio SRF3), newspapers and music blogs. The release was followed by a national tour in autumn 2022 and two new singles Run Away and No Way.

The band started to play with international artists, such as the great Marco Mendoza (Thin Lizzy, Blue Murder, Whitesnake, Ted Nugent), The Sensitives, Plainride, Claw and many more.

Besides all three members having families and full time jobs, they keep releasing singles and are on the road trough Switzerland. Party on, Wayne!

Rock is dead! Radio Strange resists this statement with their debut album "Handmade Bastard".

The post grunge trio from Zurich, Switzerland, started in summer of 2020 and deliberately renounces modern frills like autotune or digital synths etc.

Mistakes stay in! This is music that finally sounds human again and not clinical. Guitar, bass, drums and vocals - raw, loud, dirty and honest is the simple recipe.

Handmade Bastard processes the last two years, where the world was turning upside down, in twelve varied, melodic songs.

The songs sound like a mixture of 90s grunge, crossover and modern metal.

Composed, recorded, produced, mixed, mastered - "handmade" - by Radio Strange in Russikon and Uster, Zurich.
