Indie rock for late nights, open hearts & restless minds.

Based in Berlin, Soft Panic blends energetic guitars with laid-back moods and a good dose of hopeful melancholy. Their songs drift between love, loss and that weird in-between feeling of city life.

Formed in early 2025 by Jonny Ziegler (vocals, guitar), Niclas Liebling (guitar), Thomas von Graevenitz (bass) and Jan Frey (drums), the band grew out of the ashes of Bored Walk. A fresh chapter: shaped by what was, but driven by what could be.

No gloss, no bullshit... everything's written, recorded and produced by the band. Just music that feels real.
