Alice- die musikalische Manifestation einer kollektiven Midlife-Crisis... eine düster-skurriale Interpretation des Klassikers Alice im Wunderland, präsentiert im Industrial-Metal-Gewand

Members	Guitar	Christian Lorson
	Guitar	Bartu Karagöz
	Bass	Mirko Teihs
	Drums	Marco Liebrecht
	Vocals	Bianca Winderlich

AND BUNNY

Biographie

Als Duo-Onlineprojekt im Jahr 2022 gegründet, formierte sich ALICE 2023 als Band in jetziger Besetzung. Im Oktober 2024 gab die Band ihr Debut im Bocholter Vogelhaus als Opener für die japanische Band Mophing People. Nach einigen Singelveröffentlichungen wie "RABBITHOLE", "I.D.G.A.F." und "ALIEN" arbeitet die Band aktuell an ihrem ersten Album und der nächsten Singelveröffentlichung "ALADDIN ON CRACK"

Presse

"Rabbit Hole" is a mix full of protests linked to musical language. The single follows the oldschool sound of alternative metal with a more modern touch and precise elements of electronic music, proving that the band knew how to use all its influences and mix them in a peculiar way to create its own identity in music. Reminds bands like Zombie Girl, Blutengel and Ayria.

-Jessica Mar/Soundrevista

This is an awesome electronic metal track with hints of gothic undertones that is bound to appeal to a wide range of listeners. The music side of things combines heavy riffs with electronic bites and sounds to create an almost unique sound. The vocals, which are a combination of clean singing and growls really add an extra dimension to the song and gives it an extra oomph!

-The Metal Asylum

Alice's "Alien" is a strong, atmospheric trip into a dark sci-fi story, driven by an effective mix of metal, hard rock, and prog dynamics. The song begins with weird, enigmatic sounds that set up an anxious tone. The band's style combines inspirations from prog rock, a variety of dynamics between peaceful and fast moments, as well as the nu-metal edge of bands like Otep, which gives the music real power. This balanced mastering expands the song's attraction, providing it an engaging listen for both metal and rock fans.
