InEar: FUXX

Durch ein kleines Digital-Mischpult und zwei XLR-Splitter, ist es uns möglich, eigenständig für unser InEar-Monitoring zu sorgen. Dafür gibt es zwei Möglichkeiten:

(1) Das Mischpult vor Ort hat Direct-Out Ausgänge, die wir in unser Mischpult führen können.
(2) Die Bühnen-Verkabelung geht einmal durch unsere Splitter, bevor sie in die Stagebox kommt. Für den Weg vom Splitter zur Stagebox haben wir zwei 8-Way XLR Multicore Kabel (jeweils 3m). Kabel vom Splitter zu unserem Mixer haben wir auch dabei.

InEar Equipment FUXX

- ★ 1x 18-Channel Digital Mixer (Stage for InEar): Behringer X Air XR18
- ★ 2x 8-Channel Microphone splitter: 2x Behringer ULTRALINK MS8000
- ★ 2x 8-Way XLR Multicore (3m)
