Safe Dees - Break

Safe Dees is an emerging Pop singer from Germany to look for in 2019. Recently, she revealed an awesome lyric video for her latest uplifting single "Break". Without a doubt, there's something special about it that goes beyond its catchy radio-friendly nature. By this I mean she has the ability to make you feel all the emotions that evoke her lyrics.

With a wonderful singing voice, she suggests that what seems to be one true love only brought lies. Therefore, it's a song that deals with getting sweet revenge on a former fiancé. On the one hand, electronic music elements provide dynamism to this song, while on the other, the acoustic sound an organic feeling. In other words, an unexpected combination that truly works. Check out her new clip below!
