1. Tyrants

Running through the woods
Searching for the goods
The air is fresh and clear
Energy is here

Tyrants
Taking from us
Resistance
Against the loss
Tyrants
Tainted atmosphere
Resistance
To make them disappear

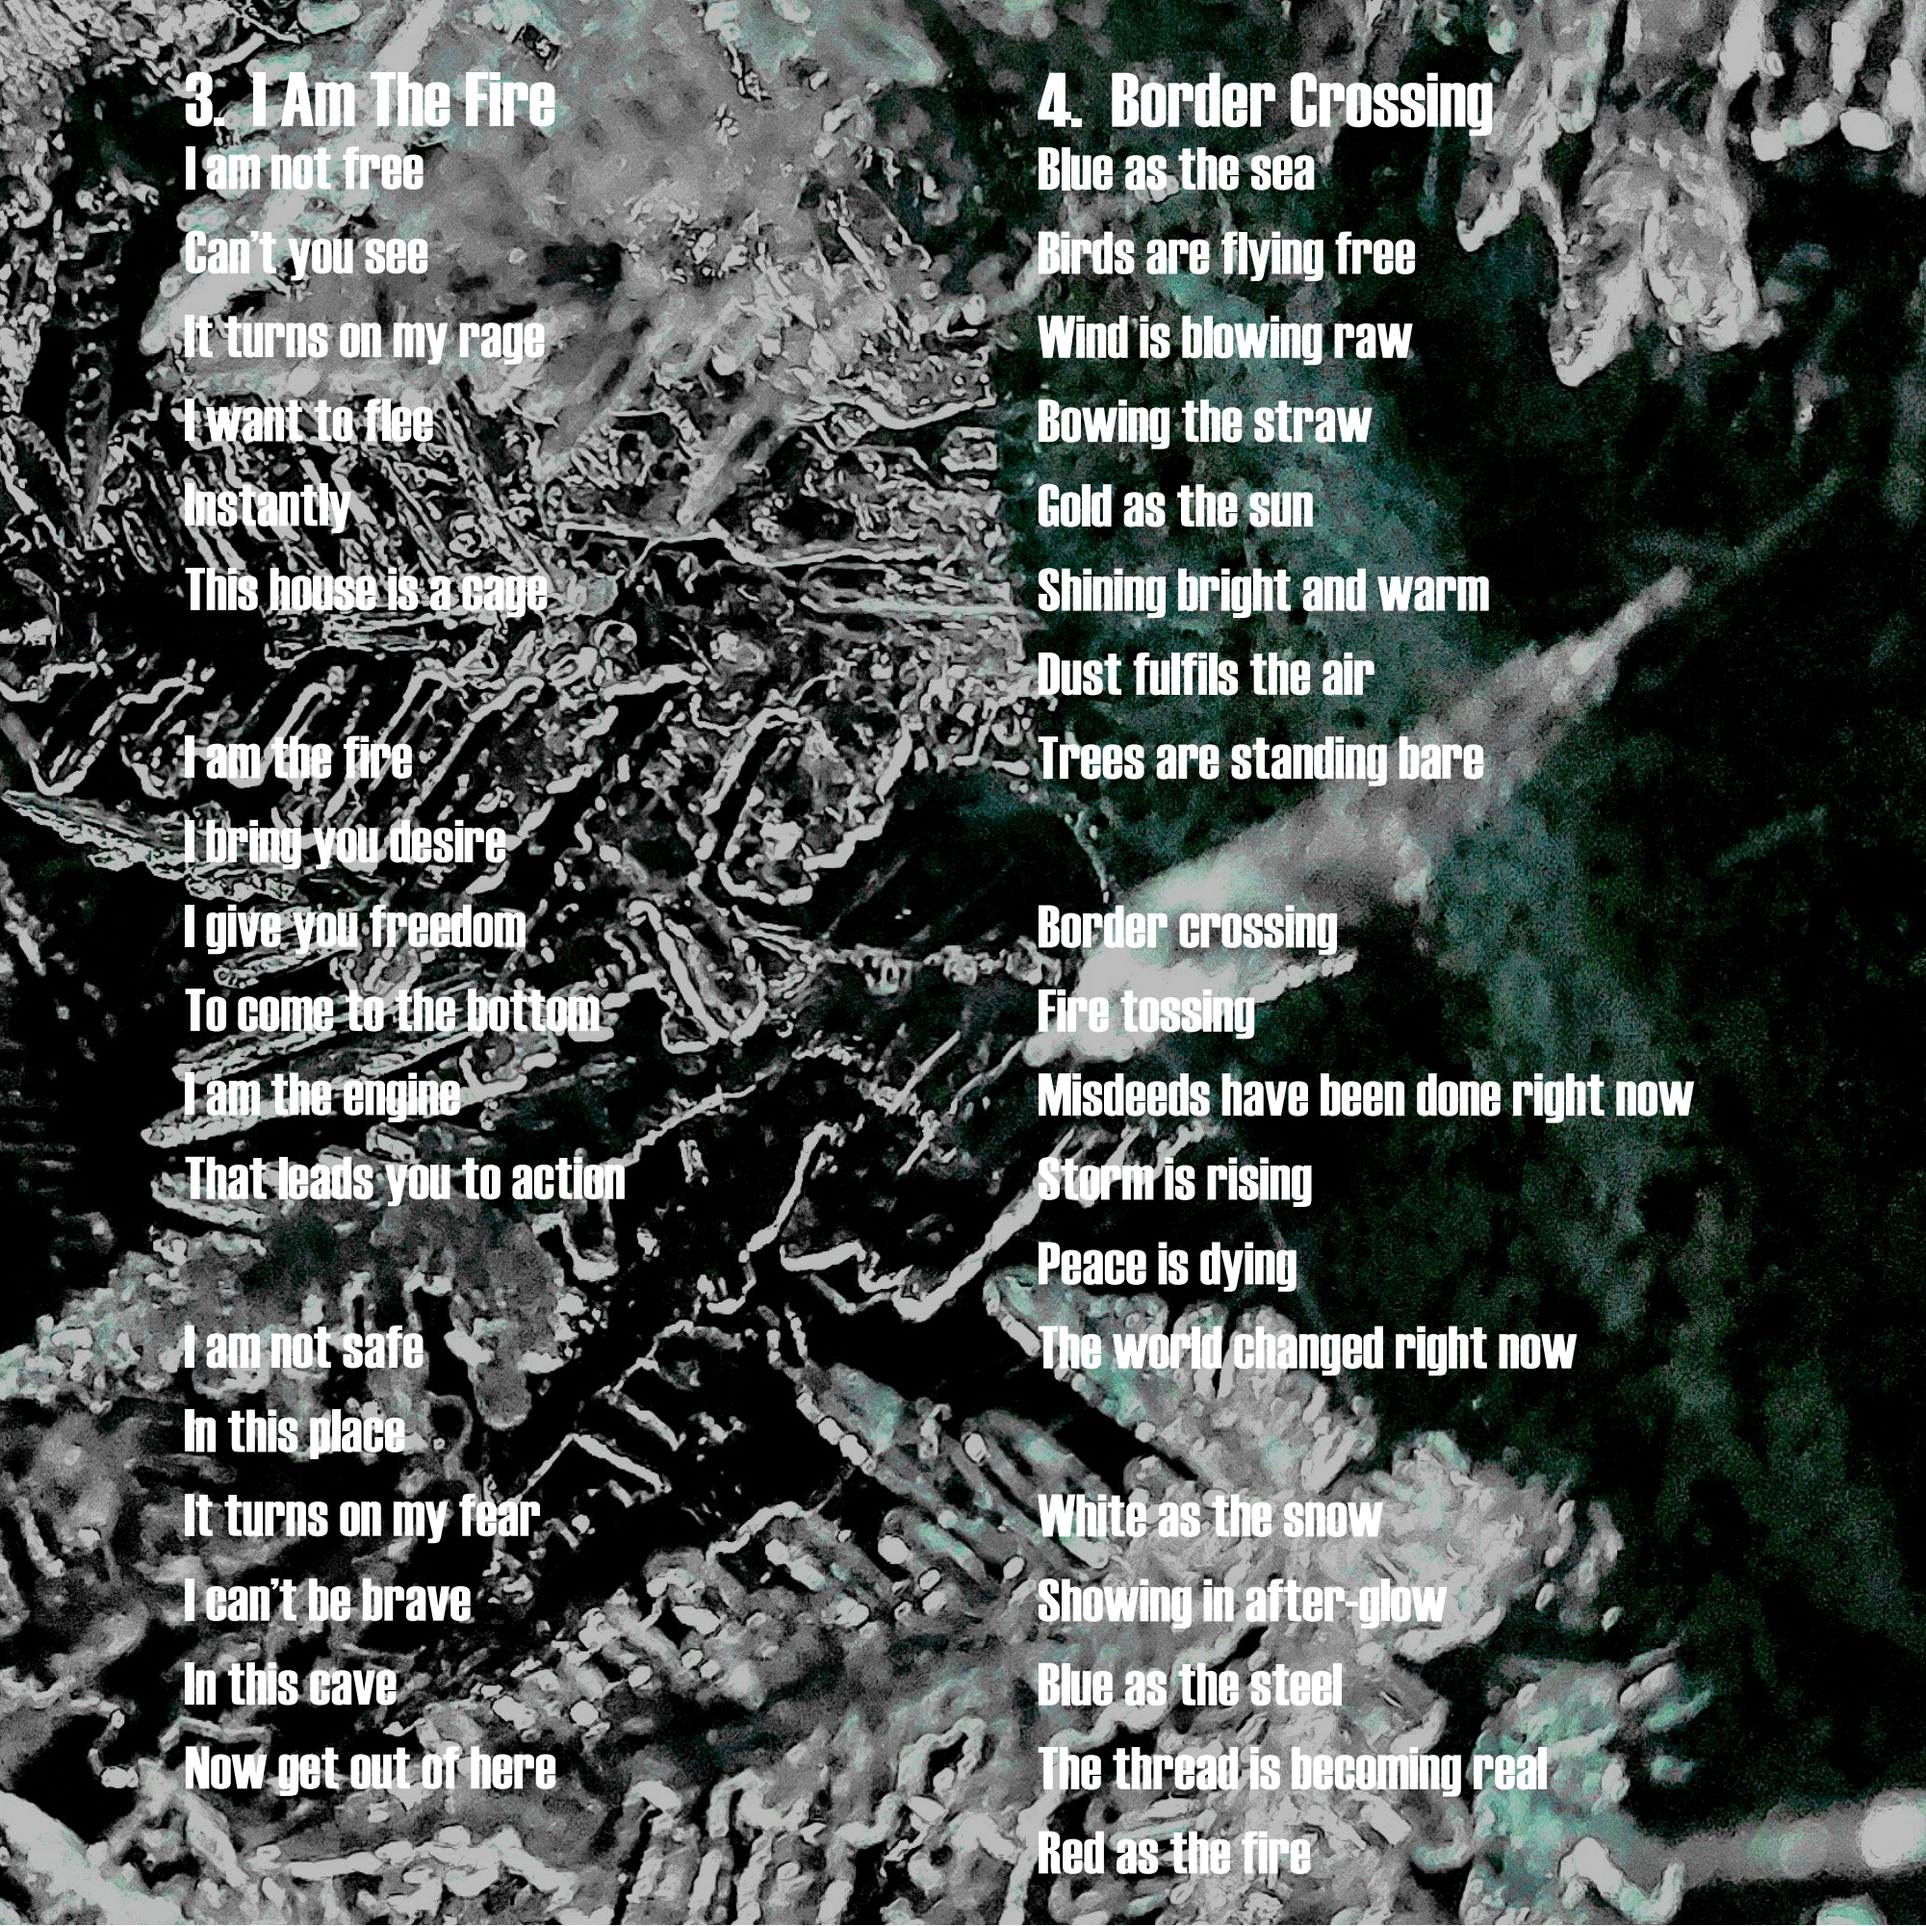

Crawling through the fields
Golden as our shields
Wettened by the dew
Above us the sky is blue

2. Lies

Alibi
Verify
Using it to justify
Terrify
Toxify
What you do is testify

You set your eyes
On another's guise
Hear your cries
Disturbed your paradise
Telling lies
About our demise
Give advice
Without a sacrifice

Ones who came
Such a shame
They are clear the ones to blame
What's new disclaim

3. I Am The Fire

I am not free
Can't you see
It turns on my rage
I want to flee
Instantly
This house is a cage

I am the fire
I bring you desire
I give you freedom
To come to the bottom
I am the engine
That leads you to action

I am not safe
In this place
It turns on my fear
I can't be brave
In this cave
Now get out of here

4. Border Crossing

Blue as the sea
Birds are flying free
Wind is blowing raw
Bowing the straw
Gold as the sun
Shining bright and warm
Dust fulfils the air
Trees are standing bare

Border crossing
Fire tossing
Misdeeds have been done right now
Storm is rising
Peace is dying
The world changed right now

White as the snow
Showing in after-glow
Blue as the steel
The thread is becoming real
Red as the fire
