In 2010 Tommy (vocals) and Potti (drums) decided to grab the bull by the horns. They wanted to start a fresh-sounding, heavy, yet melodic metal band –the idea of Premortal Breath was born. Still missing guitarists and a bassist, the two started their quest for fellow musicians. A first line-up was complemented by Armin (guitar) and Tobias (bass) and started working on new songs right away. In October 2010 the bunch entered the Beat-House Studio in Rauenberg/Germany where they recorded two of their songs (Mind over matter/Your ruin).

Still lacking a second guitarist Tobias switched from bass to guitar, a wise decision, as shortly after guitarist Armin left the band due to personal issues. Luckily a new bassist was found quite easily in Sebastian. Without intermission they continued to rehearse and push their songwriting, while looking for a second guitarist. Innumerable, fruitless auditions later guitarist David joined the band, being the missing piece. But shortly after the bands line-up changed once again -David left the band to pursue his own musical ideas. The band being fed up with auditions Sebastian stepped up

to the challenge and filled in as second guitarist. Recruiting a bassist was kind of a no-brainer, as first applicant Dominik convinced on all levels. In 2014 we recorded our first album called "THEY" in the "Logischdenker" recording studio that also mixed and mastered the songs. The album includes 8 tracks and was released in July 2014. So that's it in a nutshell.

Thank you in advance for metal message that has given us the opportunity to be able to a little review THEY album from PREMORTAL BREATH. The first time we heard the songs on this album, we provide an important point that the song they play is rooted in pure heavy metal. But the course of their songs, many combine modern elements in the song. Characteristic of thick sound in the style of guitar distortion, which sounds heavy but relaxed. Although occasionally play fast tempo, but keep coming back to the relaxed tempo that they employ some songs.

For the current era heavy metal bands mostly already played tempo is always fast and heavy sound in the game lead guitar. But PREMORTAL BREATH was not. Despite playing fast, they still maintain the harmony of the song.

The main character of vocals in some songs sound classic. And fortunately there are some vocal growl that sounded contemporary complement.

From the beginning of the song until the end, we think this album could be an option this time where they can entertain in weight but also sounded relaxed. Listeners can still follow the rhythm which they serve.

Overall in THEY album, it is presented with good material, professional in the cultivation of the song and condensed in the harmonization of the beat. And this is one of the album with material classical music and stylish modern that we recommend for fans of heavy metal music. You can get there ability and harmony in the presentation of the song.

Good luck for PREMORTAL BREATH...!!! \m/
