

Deluminate

Deluminate formed in the Summer of 2018, after members of a defunct band searched for a new guitarist and drummer. Soon two new members were found and Deluminate was born. They blend melodic elements and the high energy of Metalcore with a progressive approach to songwriting to create a harmonically-rich , yet rhythmically complex sound that combines the best of both worlds into a densely-packed, ground-shattering experience.

After two independent singles Deluminate has released their debut album on 20.06.2020

Deluminate comes from Koblenz Germany and consists of Arne on main vocals, Jonas on clean vocals and guitar, Andreas on lead-guitar, Lukas on the drumset and Carsten on the Bass.
