The new Album of Pete Largo & Band is ready to take off.

Blues, the mother of modern music, is more than that, it is a feeling.

And this record is pure feeling, supported with excellent handwork of professional musicians, attacking the Heart, Soul and Mind of the listener.

The Music is played by Musicians from different countries, each with his own musical background and culture, as it shows clearly.

The official release of the album will be in May 2017, by Wonderline Records, Germany. Wonderline Records offers to buy the CD as Disc or Download on the web site www.wonderlinerecords.de.

The promotion tour will start in autumn 2017 and will bring Pete Largo & Band all over Europe .

Pete Largo is not a Blues Purist. He is an outstanding composer, writer, musician and performer with more than 35 years on stage internationally, more than 200 studio recordings for Movies, TV and other Musicians, already honoured in 1986 by the Bundespräsident of the Federal Republic Germany for his respectful cultural work.
