SOUNDCLUTCH

BANDINFO

The Metal Hammer summarizes 07/25 "... the band is clearly rooted in the alternative nineties. Be it skillful grunge, stoner borrowings or pithy crossover that sometimes salutes H-Blockx and sometimes Rage Against The Machine." Live and on record, not only the trained music lover will be convinced. Their catchiness, sophistication and versatility also convince the occasional listener on all levels. With their debut album, the 4 guys from Hünxe in the Lower Rhine region prove that they really get down to business!

f.l.n.r.: Roland(Schlagzeug), Julian(Gesang), Philipp(Gitarre), Thomas(Bass)

H.E.A.T was produced and recorded independently. Contrary to today's conventions, the band chose this path deliberately in order to once again deliver 100% humanity to the listener. Uncompromisingly honest craftsmanship on an international level, which clearly stands out from the standardized mash in its individual quality!
