Say hello to WHY AMNESIA: The female-fronted five-piece from North-Rhine-Westphalia, Germany, represent dirty rock n roll with kick-ass-attitude, groovy riffs and catchy lyrics. With their black leather jackets and dark retro sunglasses those dudes might remind you of a biker gang - which is somehow fitting, as their music is the perfect soundtrack for a long ride on a winding and dusty road. Since 2014, WHY AMNESIA consist - after a few personell changes - of outstanding singer Shirley Golightly, lead guitarist Theus Caster and Sanni Wea on rhythm guitar. New members in 2025 are Tony on bass guitar and Viva, killing it on the drums.

A European tour supporting US hard rockers HOUSE OF LORDS was canceled due to the corona pandemic in 2022. Recent highlights have included festival shows at ROCK AM BAHNWERK, BISMARCKER ROCKTAGE, ROCK IM GARTEN, and ROCK FOR ANIMAL RIGHTS, where they hit the stage with HOLY MOSES. The band has also played opening shows for THE UNITY, COBRA SPELL and THE DIRTY DENIMS. In 2024 they toured Germany and Switzerland as opening act for German hard rock legends VICTORY, and were on stage at the Wassenrock Open Air with THE NEW ROSES, MOTORJESUS and GHOSTHER.

Breaking news: WHY AMNESIA have just been confirmed for the SUMMERSIDE OPEN AIR 2025 in Grenchen, Switzerland, and will warm up the audience for EUROPE, BILLY IDOL and ROYAL REPUBLIC! … aaaand: there will be a new single release soon! Stay tuned!
