Timeless Rage - Symphonic Power Metal from Germany - male voice

Timeless Rage is a Symphonic Power Metal band from southern Germany.

Timeless Rage offer a mixture of catchy, punchy Power Metal and detailed, expressive Symphonic Metal. The band has male main vocals and there is a tendency towards rather rough, dark and mystical sounds. Cheerful and hopeful moments, however, are also used. Expect varied and contrasting songs.

With the album "Untold", released in 2022 via the label Metalapolis Records, Timeless Rage returned with a new line-up and received good reviews in the press with an average rating of 8 out of 10 points.

The singles "Ocean Twilight - 2023" and "The Devil's Masquerade" presented Nicolaj Ruhnow as the new singer of Timeless Rage. "Moonbite Serenade" is the first single release from the next album with new bass player Daniel Wengle.

Now the band is stronger than ever in writing and at concerts. With the mixture of catchiness, variety, stage experience and the energy they have built up over the last few years, Timeless Rage can move any audience. The band has proven this at gigs with U.D.O, Battle Beast, Beyond the Black, AXXIS, Mob Rules, Freedom Call, Bonfire or Masterplan in the past.
