- **Christian Megalli:** Lead Guitar
- **Attila Ujvari:** Drums

Band Profile & Biography

Through The Unknown from Stuttgart stand for melodic death metal with modern impact. The band combines the dark melody and aggression of the early Gothenburg sound with the precision, energy and punch of contemporary metalcore-influenced songwriting. Their songs are heavy and direct, yet melodic enough to leave a lasting mark. The band sounds modern without denying its roots, blending nostalgic edge with contemporary punch.

Current Release: "For Free" (Debut EP)

On their debut EP *For Free*, the band explores themes such as social decay, digital dystopia and personal inner conflict. The songs capture a dark zeitgeist while conveying more than pure aggression: they show attitude, tension, and human vulnerability. Through The Unknown deliver heavy music with clarity and purpose - hard-hitting, intense and undeniably human.

Live Setup & Tech Rider

Through The Unknown offers a highly efficient, modern live setup that enables extremely short changeover times and provides the FOH crew with a pristine signal.

Category	Details & Requirements
Guitars & Bass	100% Direct-to-FOH via Quad Cortex (Lead & Rhythm) and Nano Cortex (Bass). We do not require stage cabinets.
Monitoring	Self-contained In-Ear Monitoring system (ART-S8 Splitter, Behringer X32, 3x Mipro MI-58RT). No wedges needed. Signals sent to FOH via our own 8-channel XLR snake.
Patch-Plan	1: Main Vocals 2: Backing Vocals 3: Rhythm Guitar 4: Lead Guitar 5: Bass 7: Sample L 8: Sample R
Power (Stage)	6x 230V sockets (1x Rhythm Guitar, 1x Lead Guitar, 1x Bass, 1x IEM Drummer, 1x Metronome Drummer, 1x Monitoring Rack).
Lighting (Optional)	"Ice/Steel" look. Cold Blue & Cyan, Cold White accents. Please NO red, orange, magenta, or warm white. Heavy backlight, haze, and hard blackouts at the end of songs.
