(Live at Maranto Vibe in Tarnów, Poland, 2026)

Wicked Drill – Berlin meets Poland; funk grooves meet psychedelic trips.

Shaped by the creative dynamic of two cultures, the three musicians craft a sound that resonates both in your feet and in your consciousness. Wicked Drill don't play standard sets; instead, they stage a high-energy, cinematic jam session that sweeps the audience along from the very first second.
Fluid grooves meet intergalactic soundscapes: Wicked Drill fuse the raw energy of funk-rock with hypnotic psychedelic jams and the unpredictable structures of prog-rock. Formed in Berlin, the trio deliberately breaks away from conventional song structures. Driven by the relentless funk grooves of Mr. ZebRa and Targel (on bass and drums) and the guitar power of LeCorse Rouge, the band creates a sound that hits both the body and the mind. On the microphone, LeCorse Rouge channels this creative energy into an explosive live performance.
Wicked Drill don't play songs—they create trips.

The lineup on stage:
LeCorse Rouge: Walls of guitar & compelling lead vocals
Mr. Zeb Ra: Driving slap-bass lines & backing vocals
Targel: Punchy drums, backing vocals & electronic sampler textures
Whether in a sweaty underground club or at an open-air festival—with their blend of 70s analog vibes, modern electronic samples, and pure, unadulterated joy in playing,

Wicked Drill transform every stage into a cosmic epicenter. Ready for the trip?

„ I listened to the sampler. Every song is different! I am a Frank Zappa fan because innovation is God to me. You are one of a few that I can hear doing that these days. Europe brings a certain thing to Rock and Roll and we need you here in US!!! In all this wake of the loss of Eddie Van Halen it made me realize the precision is what I miss. I wish I could say that in Deutsch.“
Laurah Grijalva, artist, LA

“Sounds very fresh—I really like it. It’s reminiscent of Fishbone and the Red Hot Chili Peppers, yet it has a very distinct character, thanks to the vocals, and it hits you head-on—in the best possible way. Bam! Well done! Keep on funkin’!”
