

Dear Concert Organizer,

Watching a local band at a club or festival is a hit or miss endeavor. The band will sound either like they should have never left the garage, or will reach the level of professionalism where they deserve to be out there. In addition, you will have the kind of band that plays cover songs that you have heard from a million other bands, or they bring something new to the scene. As a concert organizer, it all comes down to tough choices on what you offer the public.

As you are busy trying to figure out what you should put out there, let me offer an alternative - Skimm. Skimm offers you an easy choice. When Skimm takes the stage, I can guarantee that you will get the following: A great sounding band that writes their own high quality songs and entertains at a level that you rarely get a chance to see in the local scene. Skimm definitely has something to say both lyrically and musically. The Skimm set consists of well-crafted songs with intelligent lyrics and superb instrumentation. The musical palette offered ranges from Hard Rock and Heavy Metal to Alternative, Punk and Grunge. A bit of something for everyone, that challenges the audience to accept the infectious hooks, regardless of the preferred genre.

You have nothing to lose, and everything to gain. For your next party, concert or festival, reach out to Skimm and allow us to raise the bar and set the standard for future events. We have a flexible performance fee and are capable of playing a set between 30 minutes to 2 hours. Opening act or headliner does not matter as long as Skimm gets to bring their music to the masses. Make your next concert special, book Skimm today.

Thank you,
