Follow your dreams is the best piece of advice I was ever given says Abtin Zahed, founder and leader of Thy Dispraise for good reasons. The band started out in 2012 in Iran where free expression of art is impossible. Over years in this oppressive environment they forged and shaped their musical style of groove metal and metalcore. Meanwhile, Singer Alireza Shafiei, master of brutal shouts and growls is the perfect counterpart to Sheyda Mohammadi and her mesmerizing clean voice. Guitarist Mohammadreza Rezaei eventually added his shredding skills and composing expertise as the missing part of the puzzle. In 2021, their debut album ‚Lost Era' was released and achieved critical acclaim. Attentive listeners will notice a persian theme in our songs says Sheyda. The lyrics mirror the struggles a human identity endures at different stages of life.

Lately, some of them left their homeland Iran due to government issues and started a new life in Turkey. To be continued…
