

## THE LOW SHOE ORCHESTRA – *THROUGH THE BLACK HOLE*

*Through The Black Hole*, TLSO's debut album, features the weirdest and most freaked-out tracks the two producers from Mainz recorded during the first phase of their collaboration. Groovy seventies-style instrumentals converge with analogue synthesizer sounds to create the most ludicrous soundscapes. In a relaxed and unpredictable way Robert Mansfield and Manuel Lohnes overstep all musical limits and combine sounds formerly not allowed to peacefully coexist in one single tune. The result is an all fresh and extraordinary sound experience »from outer space«.

› ***Through The Black Hole* will be officially re-released on april 1<sup>st</sup> 2010.**

## THE LOW SHOE ORCHESTRA– *BORED OF EARTH? COME TO SPACE*

On their second interstellar album, *Bored Of Earth? Come To Space*, TLSO once again combine musical genres like Electronica and Lounge Jazz with sounds that resemble elements of vintage science-fiction movie scores. Moving beyond their debut *Through The Black Hole*, solely featuring instrumental tunes, the producers now also present vocal tracks which might be compared to the compositions of artists such as AIR, PORTISHEAD or KRAFTWERK.

› ***Bored Of Earth? Come To Space* will be released on april 1<sup>st</sup> 2010.**
