

CONATIF

POSTHARDCORE FROM HAMBURG

Conatif formed in September 2025 after Drownship took a break. After initial talks, it was clear we needed a second guitar, so we brought Sebi from Benthic into the fold, with whom a part of the band had forged friendships. Since we all come from similar musical backgrounds and are strongly influenced by 1990s and especially 2000s post-hardcore, the direction was quickly set. Within three quarters of a year, the songs for **"Moribunde"**, the album, were written. Recording and mixing took place in June and July 2026 at Tone Studio (Tonmeisterei), with supervision by David Nacke and Roland Wiegner. Artwork was handled by Benedikt Demmer (Druckwelle).

Musically, Conatif draws on 1990s and particularly 2000s post-hardcore. The vocals combine screams and singing. The lyrics deal with death, focusing on Elisabeth Kübler-Ross's five stages of grief.

We're planning to shoot a music video for the song "Trapped" and film a live performance in the future. We're also looking forward to play more shows.

Coanatif are:
Eddie: Vocals/Bass
Todde: Guitar
Sebi: Guitar
Wolle: Drums
