

KERA MUNIN

Black/Death Metal from Lüdenscheid, Germany

Atmospheric Black/Death Metal with Progressive and Doom Elements – Raw, Intense, and Uncompromising

BAND BIO

Founded in 2017 in North Rhine-Westphalia, Germany, **KERA MUNIN** began as a traditional Black Metal trio. The band later expanded their sound with influences from Death Metal, Ambient, and Progressive elements, leading to a new sonic direction. This evolution culminated in the 2020 demo tape "Demonstration".

In 2021, the band was joined by a second guitarist to further expand their musical range, which led to their second release. In 2022, the EP "Moment" was released. In 2024, KERA MUNIN released their first full-length album titled "Z.E.I.T." It contains their most intense and darkest material to date, dealing with profound internal struggles and psychological turmoil.

In true D.I.Y. spirit, KERA MUNIN handles everything themselves – from songwriting and recordings to all artwork. The band recorded, mixed, and mastered "Z.E.I.T." entirely on their own from January to March 2024.

DISCOGRAPHY

Z.E.I.T. (Full-Length Album) – September 2024

The most intense and darkest material. 9 tracks exploring themes of time, inner turmoil, and psychological struggle. Features guest musicians on cello, double bass, psaltery, and glockenspiel. Recorded, mixed, and mastered by the band.

Moment (EP) – September 2022

Atmospheric and modern Black Metal with intelligent songwriting. Recorded entirely live in one session, capturing the raw energy and intensity of the band's performance.

Demonstration (Demo Tape) – September 2020

The band's first release, showcasing their raw Black Metal foundation with emerging progressive elements.

PRESS QUOTES

"Dark and gloomy from the Sauerland - Kera Munin's debut album 'Z.E.I.T.' defines atmospheric Black Metal. They have not only stayed true to the Black Metal core of the genre, but also added progressive elements. The title is fitting and the album shows passion. The content is also appropriately designed, the quartet has succeeded in creating a well-rounded product."

— Slam Magazine, February 2025

"Tip! Our old acquaintances Kera Munin return after a successful debut 'Moment' with their full album. It's called 'Z.E.I.T.' and sets out where the debut left off, namely with atmospheric and modern Black Metal. 'Modern' are primarily the clear arrangements and the handling, also to include a cello and a double bass, without losing the metallic foundation."

— Legacy Magazine #141, June 2024

"Kera Munin return after a successful debut with 'Moment' with their full-length album 'Z.E.I.T.' The album deals with the theme of time and transience in all its facets. Dark and melancholic, the album combines Black Metal elements with progressive and doom influences, creating an intense and oppressive atmosphere."

— Legacy Magazine, June 2024

"Kera Munin have created an EP that gives the dark metal a little lift and gives 'Moment' a sound that Kera Munin are the only ones to have. There is no doubt that there is clearly a good balance of ambition here."

— Metalized Magazine, Denmark, 2023

"12 Points – Intelligent Black Metal. The guys combine atmospheric and modern Black Metal with intelligent songwriting. They build up their songs slowly, create tension, and let it explode. The album is not only musically well done, but also intelligent in terms of songwriting and the desire to also build in a cello and double bass without losing the metallic foundation."

— Legacy Magazine #153, June 2022

"8/10 Points – 'Moment' is really an EP where there is no way to skip! And the best thing about the whole is that it works just as well from the beginning to the end. Black metal is a genre that has been here for a long time, but Kera Munin have managed to create an EP that gives the dark metal a little lift."

— Metalized Magazine #145, 2022
