

ARTIST/BIO

Robin Pfeiffer is an up-and-coming DJ, music producer and remix artist based in Stuttgart, Germany.

Blending his trademark future house sound with popular dance and hip hop music, Robin quickly rose to one of the most requested DJs in the area playing multiple gigs and residencies every week.

After making waves as a producer with his remix for "You & I" by Dutch DJs Mike Williams and Dastic back in 2017 which has gained over 12000 plays on Soundcloud, he decided to take his production skills to the next level by enrolling at Deutsche Pop where he recently received his diplomas as an audio designer and audio engineer.

His debut single "Alone", originally produced as a project work for his sound design classes, got released in August 2018 as part of the Campus Compilation, a sampler by Deutsche Pop to showcase their top student-creations.

Touring around Germany and his hometown Stuttgart, he still finds time to work on new music. Having just released his official Remix for future bass duo Radiozoo's hit song "Closer" featuring Yan, Robin Pfeiffer does not show any signs of slowing down any time soon.
