

Lübecks EPIC Metal Band is here to perform!

Paint It Grey combines symphonic elements with neck-breaking riffs for a truly furious show!

Enchanted vocals are woven with symphonic synths. The two guitars are intertwined in complex melodies. The bass and drums set a solid foundation.

The young sextet was formed in 2025 and immediately began writing songs. Inspired by the greats like Nightwish and Evanescence they combine influences from classical music with modern elements of Alternative, Death and even Progressive Metal.

First shows, singles and music videos are already planned for early 2027. Their drive to perform live is a steady force pushing the musicians forward.
