Backline and Travel

- The Sprees are open to sharing our equipment
- For gigs outside of Berlin it would be great if we could use equipment from other bands or the venue, particularly drum kit (shells) and bass amp
- For gigs outside of Berlin the band would love a designated parking spot close to the venue
- Outside of Berlin we would also be thankful for hints on accomodation.

Hospitality

- Travel party of 5
- We would appreciate vegetarian food or a small buyout
- Beer, water and soft drinks would also be much appreciated
- If possible, a backstage room for changing and warming up would be great

The Sprees Stage Plot

FoH and Lights

- Genre is indie rock with emphasis on hooks and grooves, so the instruments should be quite balanced and the vocals well audible
- Chris and Phil are both lead singers
- The band is thankful for mostly blue, purple and white lights
