

Wicked Drill

Wicked Drill Wicked Drill are a crossover power trio, founded in 2019. They immediately set about writing and recording enough songs to practically fill two full albums! The first EP, entitled "Not my Song", was released in June 2020. So far, this has been followed by 20 singles on streaming platforms. The catalog now includes around 50 songs.

At Wicked Drill, classic and heavy rock meet dirty grooves. Passionate and consistently beyond the spirit of the times, Wicked Drill go their own way. Live, this manifests itself in a rousing concert experience, fueled by spontaneous, unpredictable jams. The massive sound network of this evil drill consists of Hendrix/Zeppelin-like guitar riffs, hard slap bass and fat drums that not only get into your ears but also into your legs.
