"The name refers to the sound experience - my music aims to crush you with a wave of emotions". Dean Schweitzer goes by the name of TIDALWAVE. With his band, Dean has played some of the best venues in Europe, touring with international rock heavyweights such as THREE DAYS GRACE, SKILLET, TREMONTI and HOOBASTANK, earning him a reputation for electrifying live shows.

It is therefore no coincidence that TIDALWAVE was chosen by Visions Magazine as "one to watch". Lead single "1992" is an alternative rock anthem, reaching over 4 Million views on Youtube alone. Not bad for an artist that only just kickstarted his career thanks to a promising EP, mixed by US producer Jamie King (Between the Buried and Me).

"TIDALWAVE has gone from being just another alternative rock band to a band that I hear a good deal of significance in"

"TIDALWAVE is a melodic musical monster" alternativenation.net

"There's plenty of potential for these tracks to become live anthems, such is the catchiness on display" getyourrockout.co.uk
