

BLACKNETIC

Pure Metal

BlackNetiC, founded in September 2012 by Chris Erlbacher (drums) und Peter Sowade (guitars & vocals), move musically between Heavy Metal and Thrash Metal. At the beginning of 2013 Sam Wagner (bass & backing vocals) and Ronny Kloß (guitars & backing vocals) joined in and completed the line-up.

The four of them cover up a rather wide range of the hard genre, spiced up with guitar harmonies and melodic singing.

Their arsenal of numerous, older and newer compositions guarantee a diverse live performance bursting with energy.

The first, self-recorded and -produced Demo called "Hell & Fire" was released in February 2014. The first studio recorded EP "See The BlackNesS..." was published in May 2016. Currently, they work hard on new material to be released on an album which is scheduled for the coming year.

Stay Heavy !
