Pat Carter's **Rodeo FM** have been playing their brand of Alt-Country mixed with an Indie-Rock attitude for nearly 20 years - in dingy cellars and at vernissages, at weddings and funerals, in beer tents and night clubs, at jazz festivals, symposiums and demonstrations. The Berlin based band have been pulling crowds from the South of France to the East of Ukraine and been likened to Americana greats such as *Crosby, Stills, Nash and Young*, *Whiskeytown*, *The Band* and *Tom Petty*. They have won substantial praise from diverse platforms and blogs. Pat Carter is published by Sentric Music. He is available for interviews through HenryRoIPR or through [www.rodeo.fm](http://www.rodeo.fm)

Rodeo FM's new album **Right Wing Planet** is out in March 2023. It laments the despicable state of affairs on this planet. In classic toe-tapping, dancefloor-shaking Rodeo FM manner. Could make you want to sing along if only those lyrics weren't so dire.

*"Quality song-writing and musicianship... great band with solidly progressive politics and a determination to keep doing what they love doing – and do so very well. So buy their music."* **Americana UK**

*"...caught up on the good albums that have come out lately. Like this one."* **Darryl Sterdan / Tinnitist**

*„Rodeo FM have prided themselves on ear catching choruses that take you on a journey from start to finish“* **Maverick**

*"Left-Wing-Country"* **Cowboyband Blog**

*"True Americana greatness."* **Ryan Cassata**

*„When you think of fantastic country artists, which city comes to mind? Nashville? Houston? The correct answer is Berlin“* **the Rodeo Mag**

*„Il n'y a plus aucune frontière à partir du moment que l'on a des morceaux de cette qualite.“* **Le Cargo**
