About Temper

Temper stands for a powerful mix of stadium rock, metal, and catchy melodies. The band generates a vibrant energy fueled by anger, fear, emotional depth, and hope. Whether it's a breakdown or a sing-along chorus, Temper delivers a show that the audience will never forget.

Sound & style

A breakdown after the second verse? Sure, why not? Catchy riffs and melodies? Definitely! Add a pinch of inspiration from the 80s and 90s Metal, and you're rocking with Temper. Pun intended!

Temper seamlessly blends Metal and Rock to create a powerful, catchy sound that truly gets the adrenaline pumping. With their energy and passion, and both socially critical and emotionally charged songs, the guys from Berlin create a unique and exciting experience for their fans.

History

Founded at the end of 2015, Temper developed from a jam session within the same company. In 2016, the focus shifted to writing their own songs. With influences from Brazil (Lucas, Gabriel) and later Bosnia (Kenan), the musical diversity grew. After the pandemic, Temper returned to stages in 2022 and impressed audiences at events such as Metal Gods V, the Rockcity Berlin Festival, and the SPH Masters Berlin Regional Final. Since then, they have been continuously rocking live and working on new songs.

Experience & Highlights

- small festival stages and club stages
- multiple gigs in and around Berlin, e.g, in prestigious locations like Lido, Cassiopeia, Privatclub
- Audience size: ideal for clubs (100–500 spectators) or smaller festivals
- Live show: energetic, tight, and interactive
