Artist Biography

AURORA BY NOON, an energetic alternative rock ensemble from Upper Austria, brings to life the best of current and traditional classic and hard rock genres with their classic lineup of guitars, bass, drums, and vocals.

Their sound, an electrifying fusion of powerful melodies and driving rhythms, carries an unmistakable energy that targets the heart of rock music.

AURORA BY NOON's music is a journey that blends the spiritual depth of past decades with a modern, philosophical perspective on the present. Their songs tell stories that delve deep into the soul and evoke emotions, while the guitar riffs and powerful drumbeats invite listeners to groove and headbang along.

Catchy choruses linger in the ear, leading listeners through a labyrinth of passionate power that merges modern and traditional elements into a unique experience.

The Band draws inspiration from legendary bands like Bush and Audioslave, while also recalling contemporary groups like Welsh rockers Those Damn Crows or the rising Swedish band tAKida.

They create an homage to rock that, with its fresh, contemporary flair and profound melodies, inspires us and reminds us how music can connect worlds and open hearts.

BACK TOGETHER, BETTER THAN EVER - The Story Behind the Band

AURORA BY NOON's current lineup, having collaborated in various configurations and projects for many years, has experienced the typical highs and lows of a band.

In 2020, bassist *Markus Sumereder* chose to take a creative hiatus to focus on developing original song material. His goal was to reinvent himself musically and devise a strategy to establish the band in the Austrian rock scene with original material and conquer local stages and festivals.

This creative break led to a remarkable collaboration with globally recognized musicians who have performed alongside artists like Brad Paisley, Carrie Underwood, and Skunk Anansie.

This collaboration laid the foundation for their impressive debut album "BLACK CROSSES IN THE SUN," which was met with critical acclaim and highly praised by both streaming platforms and critics.

The album received outstanding ratings, including 9.5/10 from Headbangers News, 4.5/5 from Stormbringer, and 4/5 from Concerto.

Several tracks were also featured in radio playlists across Germany, the US, Switzerland, the United Kingdom, and the Netherlands.

The album's title track, inspired by the events of the Ukraine conflict, gained special recognition and was played in heavy rotation by ROCK FM in Kiev for several weeks, earning acclaim within its moving historical context.

In the fall of 2023, **AURORA BY NOON** returned to their original lineup. *Claus Schossleitner* and Brazilian guitarist *Max Nevez* handle the guitar parts, *Martin Leuchtenmüller* plays drums with rhythmic precision, and *Christian Keller*, whose intense and distinctive voice gives the band its characteristic sound, completes the lineup.

This reunion aims not only to present the already released album live but also to develop new tracks, continuing the musical journey and expanding the band's repertoire.

Line-up:

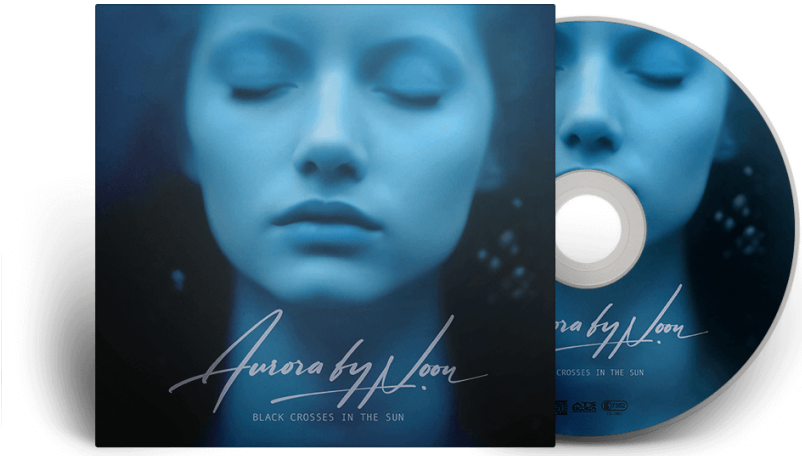

Christian Keller	Vocals
Claus Schossleitner	Guitar, Backing Vocals
Max Nevez	Guitar, Backing Vocals
Martin Leuchtenmüller	Drums
Markus Sumereder	Bass, Backing Vocals

Artist Biography

AURORA BY NOON

The Debut Album:

AURORA BY NOON is proud to present "*BLACK CROSSES IN THE SUN*," a debut album that not only pays homage to the evolution of rock music but also has the potential to significantly influence the rock and hard rock genres.

Across twelve tracks marked by impressive musicianship and a strong concept, the album offers an unforgettable listening experience. Each song tells its own unique story, taking the listener on a singular emotional journey.

The album blends contemporary hard and heavy sounds with elements from decades of rock music, creating a unique mix that could become a classic.

For anyone passionate about genuine, compelling rock music without a preference for a specific rock or heavy genre, "*BLACK CROSSES IN THE SUN*" is a must-listen.
