

Black Sheriff are the Irish / German / Mexican Rock n Roll bastardisation of The Dead boys , Mötley Crüe and KISS

Formed in 2006 in Cologne, Germany by Glen Clarke (vocals, guitar) the band exploded onto the scene with their self titled debut album.

Playing and writing as much as they could the boys burned out a bunch of bass players, drummers and a founding member until the current lineup featuring Lukas Strunck on drums and Diego „The Bulldozer“ Mendoza on bass recorded the up and coming masterpiece, aptly entitled „Time To Burn“

Featuring special guests Ross "The Boss" Friedman, of „Manowar“ and „The Dictators“ fame, whose screaming lead guitar adds the icing on the cake to two tracks and Lisa Kekuela of „The Bellrays“ whose beautiful, soulful voice makes "One You Love" a perfect rock hit, this album just keeps on giving.

The band has played in front of thousands one day and in front of 5 folk the next, do they give a fuck? Do they give less ? No !!

„It doesn't matter how many people you play for, that one guy in the corner paid his 10 bucks to see a show and that's what he's gonna get“

The boys have just released their fifth Album „Time To Burn“ on Savage Magic Records

Come to the show and Drink Out Loud !!

We got it, you want it!!!
