SATAO

***Insidiously blackened stoner
and doom from Germany***

***Debut album "Devourer Of
Man" released October 24th***

Self-released (Vinyl, Digital)

***Genres: Black metal, stoner,
doom***

In order to live out their fascination for dark, raw metal, the (ex-) members of Darmstadt groups Elephant Messiah, Precipitation, and Bushfire founded their new band SATAO in 2022. The heaviness of stoner doom forms the foundation of the new sound, while a cold black metal atmosphere dominates the nuances of the songs. Through the different influences, the four piece write energetic and dynamic compositions that take their time in the right places, creating a blackened serenity one moment only to dissolve into crushing heaviness the next.

In March 2024, the band went to "Lofthaus studio" in Darmstadt to record their debut album, released on October 24, 2024. The seven tracks on "Devourer Of Man" were written between 2022 and 2024, and offer ruminations on fear and death upon an altar of mighty, sluggish riffs.

Cold yet dynamic, black yet groovy, SATAO's music is scathingly heavy. Gird yourself to be chewed up and spat out by the "Devourer Of Man".

WHAT'S NEXT:

"The band is gearing up to play more live shows, with two shows already booked for the end of the year. We're preparing to dive into writing new music as well in the wake of 'Devourer Of Man'. More riffs await."
