

L WMIND

About Lowmind

Groovy and complex guitar riffs paired with melancholic passages and socially critical lyrics, the alternative rock band LOWMIND from Munich deals with a wide variety of topics. Singer and guitarist Lorenz Weh released his first songs as a solo artist alias 'LO.W.' in 2017, before the project developed into a band project for live concerts with Mikael Riess on drums and Jonas Bell on bass. The style is characterised by various musical influences from the broad spectrum of the genre 'alternative rock', complemented by modern synthesiser and keyboard sounds. On 28 May 2022, there was a concert on the stage of the Ohrwurm in Laim to mark the first release 'Reconcile'. After successful participation in the band contest 'Utting 900', a performance at the 'Sammersee Festival 2022' followed. Further concerts took place in the summer and autumn of 2022. The band also played numerous gigs in 2023, including at the 'Szene Check' organised by Feierwerk, at the Klangfest at the Technikum Munich, an unplugged concert at Gans Woanders and a gig at the "X-Mas Chillout Week" at the Backstage Club Munich. Most recently, the band played at Backstage in 2024/2025 as support for Kensington Road, a benefit concert at the Stadion der Träume/ Gasteig, at the Glockenbachwerkstatt in Munich as support for Atomic Lobster, and at the Kranhalle as support for Lifespark. The band played at the Theater Drehleier in Munich on 3 January 2026 as part of the two-day 'The New Year Revolution Festival'. On 25 September 2026, Lowmind released their newest Single „No Protection“ which was mixed and mastered in America by Jeffro (<https://www.jefffromixesyou.com/>).

Outlook

Lowmind is already working on new songs for a follow-up EP and further concerts.
