S H A K Y F O U N D A T I O N

Sunset and starlit sky music – words, which the band Shaky Foundation have once used themselves to describe their style of music. Consequently a night ride in the car on outlying misty roads seems to be well suited to get in touch with their first studio album “Psychonaut“. With these twelve dreamy and spherical tracks the musicians accomplished a feat: They create a microcosm that seems to be infinite.

Max (vocals, e-guitar), Sebastian (e-bass, synthies) and Jannis (drums, vocals) have never intended to sound like any other band and whoever listens to their debut LP indeed has to think long about when and where he has heard something at least rudimentarily similar before. Definitely it doesn't sound like something created by three 19-year-olds at all.

JOCHEN JÖRG

“The expression [Psychonaut] is well chosen because the interior of the soul is as infinite and mysterious as outer space itself and because cosmonauts of the outer as well as of the inner space can't remain there, but have to return to earth and everyday consciousness again. Both journeys also require a good preparation, so that they can be realised with a minimum risk and become really rewarding experiences.”

... „Clean and pretty playful indie pop from the promising alternative line up of Wuerzburg based Shaky Foundation.“ ...

OSLO INDIE OFFICE, NORWAY

„You are full of dreams when you are young. Maybe you want to travel the world, or maybe you want to be a millionaire one day – or a successful musician. I’m sure the three guys from Shaky Foundation, a new band from Würzburg, are on the way to make their dream come true. They released their debut album “Psychonaut” a few months ago, a beautifully played and produced indierock/dreampop record“ ... BEEHYPE

“Illuminated by golden light Maximilian Seeger, Sebastian Höhn and Jannis Scheurich evolved a homogenous soundscape, in which especially the voice of frontman Max could impress. Quite a few people felt like they have literally experienced an intimate musical hug during the concert.“ Translated from Mainpost
(NICOLE OPPELT), GERMANY

„Shaky Foundation è un interessante progetto pop proveniente da Würzburg. Il terzetto tedesco ha pubblicato un nuovo disco intitolato Psychonaut. Le dodici tracce ci indicano subito le coordinate della loro musica: un’attenzione alla composizione melodica, a volte ridondante ma comunque suggestivo e orientato su atmosfere dreamy.“ SON OF MARKETING, ITALY
