Dating Medusa – Rauschen (Indie Rock)

2 min | Text: Franklin
Release Date: 20.09.2025

With an unstoppable, high-energy guitar sound, the Bonn, Germany-based indie band Dating Medusa immediately grabbed my attention! Anyone who knows me well can tell I can't resist punchy and bold alternative rock, which is why I just had to share their new EP 'Rauschen' with you all.

The five tracks impress with German lyrics and dynamic arrangements, full of virtuosity and catchy melodies. I feel like I'm listening to an early 2000s record with brilliant punk influences. A sense of embarking on something new, combined with rebellion and powerful expression, washes over me, while the vibe also conveys something motivating, determined, and confident.

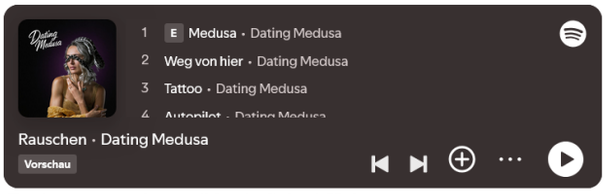

With a vibrant live feel, Dating Medusa's music comes across less as a perfectly polished rock EP for commercial radio stations and more as an authentic indie record full of spirit and an unmistakable DIY touch. Coupled with the bold distortion and lively drums, the thoughtful and moving songwriting quickly engages anyone listening. I also really enjoy the intricately crafted arrangements that make this EP feel like a little musical journey.

There's also something very captivating about the incredibly expressive vocals, which stand out with remarkable precision and give the band a unique identity. You can check out the preview of 'Rauschen' below. If you dig it, make sure to find out more about Dating Medusa on Instagram and Spotify:
