ARTIST INFORMATION:

The Creepz are 5 guys from Frankfurt am Main, who are touring around their hometown since 2015. After playing in almost every place around, they recorded their first single ,Burnout‘.

After that, they broke up with their first bass player and spent some time writing songs, till they got together with their new bass player. Back together as a complete band they recorded their second single ,Happy‘ and an acoustic version of their song ,Johnny‘ and started touring around again.

Then they had some internal struggle internally and ended breaking up with their second bass player.

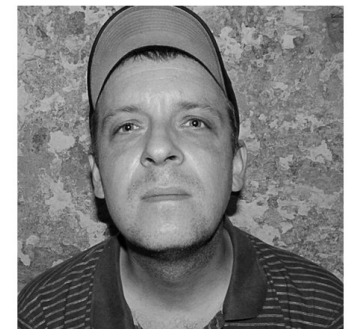

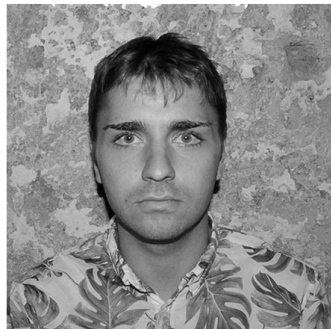

After a short period they got together with their latest bass player.

Since then the band's style changed dramatically.

They call their new style ,hollywood-porno-punk‘ a Punk based style with Hardcore, Crossover, Funk and Ska influences.

They've been playing many solo shows as headliner and even as support for bands like ,Kransthøver‘,The Munitors‘ or ,Gisela von hinten‘.

Looking forward to this year listeners can be curious about this insider tip, that already has its regional based fan crowd.

Current Line-Up: Leo Rauch (Drums), Fabio „Fuddled Fab“ Di Gregorio (Guitar), Marco „Maggo“ Mazur (Vocals), Christian „Hunkel“ (Guitar), Thomas „Tommy Mono“ Müller Bass)
