

Straight Towards

- Legacy -

Release: October 7

"Legacy" presents the musical result of the eventful careers of Thomas Rückert and Stephan Schulz, who together form the Berlin duo "Straight Towards". A life's work of modern songs, which still clearly show their influences from the synthpop and dark wave scene of the 80s. Stylistically an innovative mixture of rock and classical elements paired with German and English lyrics and characterful vocals.

Worked out and constantly further developed on a long journey through life, the titles now have the desired tonal maturity. Songs that get under your skin. Characterized by true experiences from different times and phases. This is about real life, love, hope, dreams and critical self-reflection.

The monumental opening "Dark Thoughts in Red" surprises with an imaginatively told vampire story. "Day by Day" comes up with driving rhythms, a strong chorus and electronic tinkering. In the pieces "Schwerelos" and "Befreit" the rock guitars officially break the mold. The great hymn "Sonne und Regen" forms a successful conclusion.

Musicians:

Thomas Rückert (Vocals, keys), Stephan Schulz (Vocals ("Angel's Invitation"), guitars, piano, drums, bass guitar, programming), Saskia Simunek (Background vocals ("Dark Thoughts in Red"))

Bio:

Appropriately, their first exciting and groundbreaking encounter takes place on stage. The two original Berliners Tommy and Stephan perform in different bands at a concert in their youth and get to know each other that way.

But then each of them goes his own way. Until two decades later, their paths cross again. In the meantime Tommy has matured as a singer and songwriter and Stephan implements his ambition to become a professional musician and producer after a profound change in life.

Now everything comes together. Tommy is almost inexhaustible in coming up with new song ideas and Stephan takes care of the perfect sound. So they create music together without detours through perfect complementation, which immediately and directly captivates you. Just "Straight Towards".
