

Dear Technician, please read the following pages to know more about our needs as a band.

We play melodic metal and prefer a clear, but powerful sound. We use a **Triggered Bass Drum** with mostly fast double-bass patterns. We also use a **stereo AUX Channel** for Intros/Outros/Bassdrops. The **Singer (Cage)** uses an **Effect Pedal** for Effect-Reverbs, Echoes and Distortion. The **Backing Vocals (Eric)** will have some **Lead-Parts**, which are mandatory to be loud enough. **Both Guitars (Steffen & Eric)** will switch between **Distortion and Clean sounds** (we tried to adapt volumes, to have the same loudness between sound patches). **The Bassist (J-Low)** doesn't use any effects. **Additionally to our sound EQ, we will prepare Light-Show-Equipment (if applicable).** **Please contact Eric for further questions via mail (infinite.swarm@gmail.com) or phone +4915201872515. Thank you!**

RED: Band will bring their own Equipment

BLUE: Venue will provide equipment for the band. [Bassdrum, Toms, Hi-Hat, Drum Mics, PowerOutlets]
