

PREDISSION

Predission is a metal band from Lübeck, Germany, blending *experimental* and *progressive* elements with the *raw aggression* of Hardcore music.

Formed in 2022, they quickly drew attention with their uncompromising demo and genuine live shows.

In 2025 they released «Nightreign» via *First Floor Funeral Records*, a track that showcases their dark atmosphere and dynamic shifts in sound. Their current EP «Neuron» pushes boundaries even further, merging heaviness with forward-thinking soundscapes.

Predission is carving out a space where *chaos* meets *evolution*.
