

# DESDEMONIA

## Technical Rider:

BACKDROP 5x3m or 3x2m

## Details:

DESDEMONIA play as a **four-piece**: 2 guitar players, 1 bass player and 1 drummer.

DESDEMONIA uses a **backdrop (5x3m or 3x2m)**. This backdrop needs to be spotlighted in order to see the Logo.

During the concert, the guitar and bass players will change positions on stage, so **microphones** should always be at the **same height**.

The band uses an **intro**, which will be given to you prior to the show by Tom or Marc Dosser. During this intro, there should already be fog and lights should be dimmed. The show starts right after the intro.

Guitar **solos** are played by both guitar players. The bass player uses wah and distortion for soloing in some sections of the songs.

According to the venue, the drummer can use a **D-Drum trigger** system for the performance. Details about its use need to be fixed prior to the show with Tom Michels or Tom Dosser. More details about equipment and required microphones can be found below.

1 bottle of plain water and 3 beers on stage during the show for each member.
