

Scum Shall Rise was founded in 2007 with the intend to play aggressive and energetic Metal. After work on our first Demo in 2008 we self-released our first full-length album *murine typhus* in 2009, which is heavily influenced by our shared love for Death, Trash and Modern Metal. Followed by 2 Demo-Releases in 2010 and 2012, we condensed our music to a simpler and groove emphasised style without loosing touch with our more old-school roots. During this time, we played several well received shows in the region of northern Germany.

Nowadays we are working on new material and are ready to take to the stage again!

We are Scum Shall Rise and play straight forward simple and groovy Metal with a touch of Death!
