Biografie:

Full Device is a Hard Rock and Heavy Metal Band formed in Augsburg, Germany back in the year 2017.

They got quickly known in Augsburgs music scene and were able to gain a loyal fan base with their energetic live performances. The sound is situated between hard rock and heavy metal. The lyrics often address social issues and emotional conflicts. In 2020, Full Device released their first EP, 'Kill All My Pain', which received predominantly positive reviews. Currently, they are working on their first album.

Press text:

„To play a wrong note is insignificant, to play without passion is inexcusable.“ Ludwig van Beethoven understood more than 250 years ago, the real character of music. And passion is the driving force for us, five musicians from Augsburg. Fun on and in front of the stage is our top priority, even if the lyrics of some of our self-composed songs revolve around more serious topics in life. Whether you want to dance, headbang, sing along, or simply enjoy your beer with some hard-hitting rock music, you are in the right place with us! Somewhere between hard rock and heavy metal, somehow everyone eventually feels at home.
