ALESSANDRO

The true art is to transform the ordinary into something
relatable

An unmistakable soulful voice meets compassionate and evocative Electro-Pop. Singer-songwriter Alessandro confronts his audience with issues of love, separation, pain and inevitable reconciliation with oneself.

Grown up and inspired by the creative spirit of Berlin – the ambivalence and diversity is reflected in his music and his mesmerising stage presence. Alessandro draws from a rich pool of sounds and moods creating songs for lonely days and thrilling nights that get stuck in both your ear and mind.

He is currently performing in German venues such as Privat Club, Cassiopeia, Musik und Frieden, SO36 and released his first Single "Crazy Over You" May 4th 2018 with more to come soon.

Sweet melodies and soulful tones are supplied by BIMM Berlin student Alessandro. The Berlin-based vocalist delivers delicate lines and contrasting belting choruses – we'd definitely recommend catching his set.

Alessandro then brought a considerable change of perspective. Armed with two dancers and a decent load of Electro-Pop, the young artist danced his way to the semi-finals at S036.
