BACKSTREET OIZ

Punk/ Ska-Punk/ Oi

BIOGRAPHY

2018 was a rich and exciting year for the Backstreet OIZ. Created in Munich in 2016, the German Punk quartet spent the last months between the studio and the stage. After honing their songs live on stage in their hometown, they got the opportunity to open twice for the legendary Sondaschule in December 2018 (Bamberg, sold out, and Schweinfurt).

The time now came to release their debut album 'Tier in der Hose'. With its mix of fast Punk riffs and Ska parts, the record is just like them: full of energy, good mood and self-derision. From gender fluid crush to musician disillusionment, the nine songs recorded for 'Tier in der Hose' ('Animal in the Pants') tell the story of a young Punk band craving for new challenges and bigger stages.

Their first single 'Bier in der Dose' ('Beer in the can') was released on 21.10.2018 with the first video clip of the band. This ode to beer is already sung in unison by the German audience, wager that a larger crowd is now waiting for the bOIZ to come to their town. With a new record and gigs already booked in Hannover, Saxony and Austria, 2019 should be at least as exciting as 2018.

BAND INFO

What is that for an oi-punk band? Multi-cultural band with only serious, deeply political and highly spiritual lyrics. Indeed. But who is behind this lovely yet serious name: Backstreet OIZ?

Snake the Terrible. From the distant planet Zork he came traveling, in search of worthy bandmates, which he can enrich with his extraordinary groove on the bass. It was only logical that the Backstreet OIZ asked him for his favor.

Laura the Brain. But why the brain? Quite simply because the band would be totally lost without her. Even then, her ancestors advised Napoléon on all his strategic decisions. Lucky for us that this knowledge was passed on to her. She left her native France and now supports the bOIZ with her guitar and her angelic voice.

Niklas the Animal. When he hits the drums, both the ears and the veins of the enthusiastic fans burst. He's just an animal on drums. From the outside rather like a deer, but inwardly like a gorilla (otherwise hairy as well).

And finally the head of the band.

The tormentor, the creator of the band, the lead guitar and the singer.

Lucas the Punisher. Everything stands and falls with him. Every single rehearsal his plague spreads on his bandmates. Demands, demands and demands. He has clear ideas about the music and the image. In long-lost books it is written that the Punisher should also have a very soft core in his rock-hard body... We are still looking for it.

In vain.

The Backstreet OIZ have sworn to conquer the world with their punk. And with a lot of canned beer. Unfortunately, they are usually too drunk to put their plans into action.
