MONITORING: CIRCvit is travelling with an In-Ear Rack and their own microphone split. Microphones that require phantom power need to be powered by the house console.

LIGHTING: CIRCvit travels with a 16-Fixture Floor Package, consisting of 10 ApeLabs Apesticks and 6 ApeLabs Floor Spots. They are wirelessly controlled via 2.4 GHz Sender. The Floor package does not replace venue show lighting and is merely fulfilling a supportive function.

STAGE

FOH

STAGE: Minimum Stage requirements: 5mx3m, 1 Phase of 230V Power.
Next to the stagebox there needs to be a 1x1m space for the rack and the lighting controller.

CATERING: Still water on stage during the show. Vegetarian foods are always welcome.
