COSMIC MARAUDER

BIOGRAPHY

Photo: T. Book, Konzerttouristen

COSMIC MARAUDER is a german stoner rock band delivering a mix of heavy doom riffs, psychedelic melodies and raw live energy that will shake the dust of your speakers. Their music is a journey through the cosmos – driving, hypnotic and full of emotion.

The new album“Mercury Haze“ is the second release after „Venus Ryder“and is available both digitally and as an exclusive vinyl edition. The songs reflect a more mature and refined approach – thoughtful, focused, yet still carriying the raw edge that defines them. They're also working on a visual content for the first single.

On stage they focus on dynamic and captivating live performances that transfer pure energy directly to the audience. Every show is an intense psychedelic experience that will blow your mind.

COSMIC MARAUDER

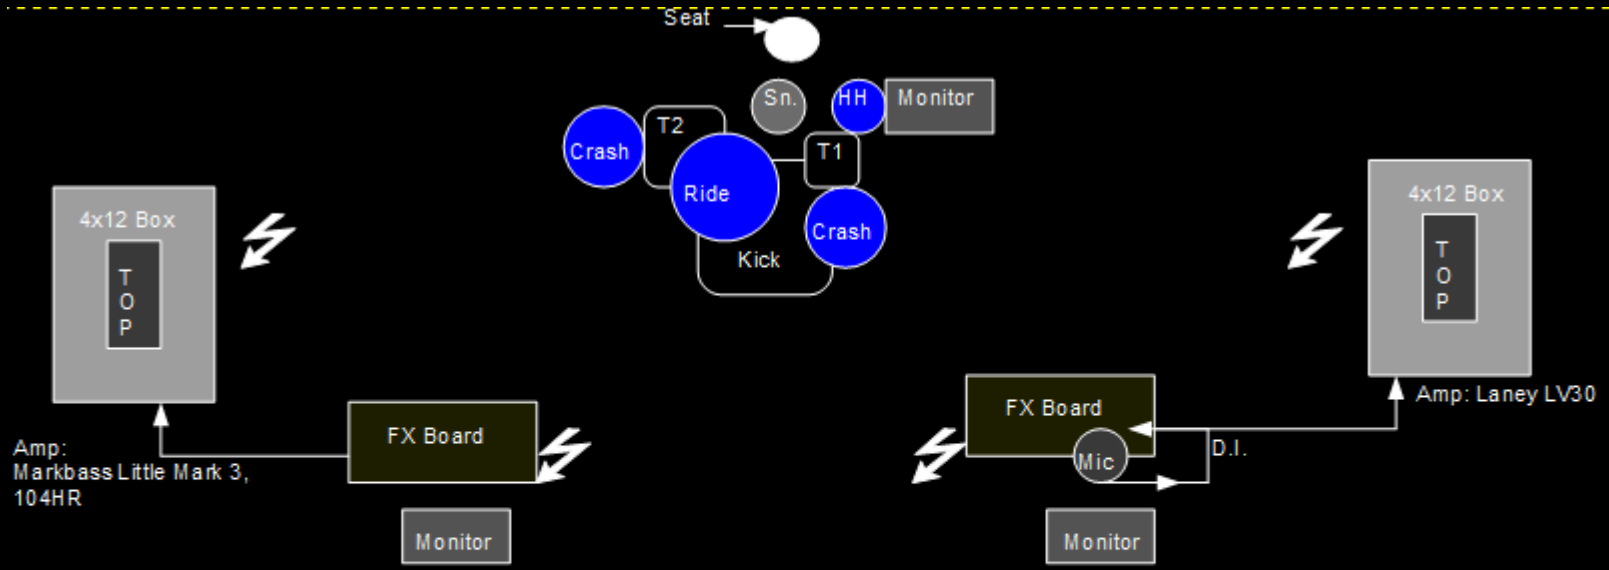
STAGE-RIDER



We need:

1x Vocal Mic
3x Monitor Box
4x Power
D.I. - Connection !

We have a backdrop 3x5 m

Beware: The Vocal Mic is connected with the FX-Board !

We also need space 3x3x3 m for our merch

COSMIC MARAUDER
MERCURY HAZE

COSMIC MARAUDER

OUTSIDE-GIGS

Requirements for Outside-Gigs 1/2

Fee & Travel Costs
Fee: by agreement
Travel costs: by agreement

Technical Rider
Detailed list of required equipment and stage specifications.

Backline
Clarification of whether equipment will be provided or brought by the band.

Taxes & Fees
Regulation of GEMA payments (including GEMA song list)

Accommodation

Hotel/Overnight stay:
3 single rooms / 1 triple room
Close to the venue (max. 15-20 minutes drive)
Parking space
Late check-in/check-out should be possible

Catering & Beverages

Morning:
Snacks (bread rolls & something to put on them)
Drinks (water, soft drinks, coffee, tea, beer)

Evening:
A warm meal (Chili con Carne or a simple snack is sufficient)
Drinks: (beer, whiskey if possible)

For the concert:
3 x 1 water,
3 x 2 beer for the stage (please keep closed for drums)
3 towels

We absolutely need a place within the venue where we can retreat before and after the concert and ideally store our cases. Of course, we are happy to share with other bands :-)

Requirements for Outside-Gigs 2/2

Guest List & Merchandising

Guest list: by agreement.
Merchandising: Provision of a sales stand (table, light & space for 3 cases)

Technical Requirements

The lighting and sound technicians should be present and **sober**.
Everything else can be managed together.

1 helper for load-in & load-out would be awesome.
1 trolley or similar would be an advantage.

The sound system should be appropriate for the venue, functional, and "ringed out" (feedback eliminated).
A lighting system should be available and suitable for the conditions.

Schedule

Setup: approx. 15 minutes (without complications)
Soundcheck: approx. 15-30 minutes
Concert length: by agreement

Teardown/Loading: approx. 10 minutes to clear the stage and
approx. 25 minutes to dismantle and load the equipment into the vehicle.

THANK YOU!

REVIEWS

QUOTES FROM REVIEWS FOR MERCURY HAZE

Denpa Fuzz, February 2025
www.denpafuzz.com/

„Their raw songs contain elements of rough and orthodox stoner, hits of monolithic doom, but also blues. A blues hidden between grooves that exude a murky, rough sound, but which also contain dreamy melodies and an untamed character. The surprising thing about the case is that this happens in each of the songs. Without artifice and creating their music with total honesty, COSMIC MARAUDER manage to attract the listener's attention with songs that always contain differentiating elements that make them attractive. Without standing out especially in any genre, their familiar sound is reflected in the tracks, making them change their physiognomy and intensity, dragging the listener into the band's particular world. But as a whole, it is a work that is well directed and that offers you moments of intensity thanks to some heartbreaking songs that, despite their orthodoxy, work. Surely any of you will draw your own conclusions, but the undeniable thing is that 'MERCURY HAZE' is an interesting album, an album that, with each listen, will give you an opportunity to discover details that went unnoticed during the initial listening.“

FDJ (Desert Psychlist)
https://bandcamp.com/fdjones

„Not really a stoner-doom sound but more a stoner/doom hybrid sound blended with a little proto-metal and heavy rock, either way a highly enjoyable listen. Favorite Track: The Depth.“

QUOTES FROM REVIEWS FOR VENUS RYDER

Denpa Fuzz, January 2021
www.denpafuzz.com/

„COSMIC MARAUDER knows how to combine shamanic and beguiling psychedelia with the heaviness of a heavy sound. Without hiding
their preference for crunchy and leaden riffs, the themes move between this duality of heaviness and calm, offering us more than twenty
promising minutes. The quality of the guitar passages is mixed with a powerful bass line that hits us hard with its crunchy and monumental developments. Always with a psychedelic facet in their sound, they maintain a dense and solvent work!“

Desert Psychlist, December 2020
https://stonerking1.blogspot.com/

„For a debut EP, "Venus Ryder" is among the best of its genre, but we (...) suspect that this band can and will get even better in the future. We predict that the lysergic experimentation that creeps into the band's raw, doomy grooves could become a much more significant part of the band's sound, and if that's the case, ... then watch out, world!“

Doom Charts, December 2020
https://doomcharts.com/2020/12/29/doom-charts-december-2020/

"...it is precisely the harmonic friction of these polarities between groovy, jamming lightness and dark, raw heaviness
dark, rough heaviness is what makes this suspenseful psych-stoner-doom work so "maraudicious" special. Well done, guys!!!“

Metalalter TV, February 2021
https://www.youtube.com/watch?v=QB75b3P_f3E&ab_channel=MetalalterTV

„This is fun! Stoner, Blus, you can listen to everything wonderfully (...) cool part! (...) good for switching off in summer (...).
It's music that everyone can listen to a bit. My suggestion: sit by the water, relax and listen to Venus Ryder.
Cosmonaut is music that could easily be played at Fifa.
